## CABLE SPINE WIRE MANAGEMENT

clips™

Cable Spine is constructed on a flexible central core which allows movement in any direction. This has the benefit of relieving strain on cabling installed in the spine which is important for delicate high specification data cable.

- No more messy and unsightly cables and wirings.
- Caters for telephone and internet line, power socket, VGA, microphone and audio, USB socket and AV Outlet.
- No modification of existing furniture required ie workstations, meeting / conference tables, receptionist, desks, training rooms, school furniture, glass tables etc.
- Easy to install.
- Able to customize to meet any variety and number of outlets.

The console is made from high quality aluminium alloy, accommodates electrical power, telephone, LAN, USB, HDMI, VGA and other modules according to your personal requirement.

Use **TR** for:-

- Boardroom
- Workstation
- Training Room
- Reception Desk
- Conference Table/meeting table
- School Furniture
- Glass Table
- Call Centre Furniture

Table opening size = Modules Length + 25mm x 75mm(W)

## TT TABLE TOP CONSOLE

**Table Top (TT)** Socket Console is a modular, surface mounted unit that provides easy access for the needs of modern working office desk without any modification to the furniture.

**TT** is specially designed to attach to any work surface simply by tightening the knob to the worktop. This unit can also be installed vertically for corner worktop applications to save space.

The console is made from high quality aluminium alloy which able to accommodate power, telephone, LAN, USB, HDMI, VGA and other modules according to your personal requirement.

Use **TT** for:-

- Boardroom
- Workstation
- Training Room
- Reception Desk
- Conference Table/meeting table
- School Furniture
- Glass Table
- Call Centre Furniture

## FB FLIPPER BOX

The **Flipper Box** is an elegant and neat solution to house standard dry wall 13A sockets in a self-contained case that can be used in any location. The box can be mounted under a work surface while the "Flipper" cover conceals the sockets surface. It also caters for managing excess cable.

Available in two standard lengths.

**V2.0**

Table Opening Size = 425mm(L) x 115mm(W)

**V3.0**

Table Opening Size = 625mm(L) x 115mm(W)

## PM PANEL MOUNT CONSOLE

**Panel Mount (PM)** socket console is flush-mounted to the surface and provides easily accessible location for the needs of modern office working desk without the need for any modification to the furniture.

The console is made from high quality aluminium alloy with able to accommodate power, telephone, LAN, USB, HDMI, VGA and other modules according to your personal requirement.

Table Opening Size = Modules Length + 25mm x 75mm(W)

## TT-FC TABLE TOP CONSOLE WITH FLIPPER COVER

This combines the advantages of the **TT** with the neat concealment of the **FC**. This allows the sockets to be below the work surface and the cables run either above or below. The cover neatly conceals the sockets whilst allowing the cables to pass cleanly through.

The console is made from high quality aluminium alloy, accommodates electrical power, telephone, LAN, USB, HDMI, VGA and other modules according to your personal requirement.

Table Opening Size = Modules / Alum. Length + 25mm x 115mm(W)

## FC FLIPPER COVER

The **Flipper Cover** is a multi-purpose cover. It's designed to be mounted to a work surface allowing access to any console or product below. The cover neatly conceals the opening in the work surface whilst allowing the cables to pass cleanly through.

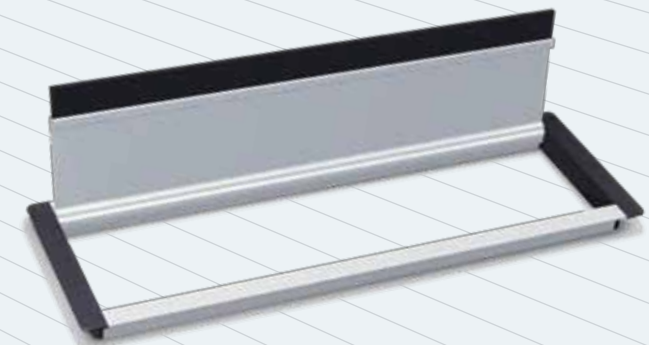

Table Opening Size = Alum. Length + 25mm x 115mm(W)
